

Japanese Cryptomeria 'Chapel View' PPAF

Promised Performance[™]

NEW from Plant Introductions, Inc.
and Sarah P. Duke Gardens.

'Chapel View' PPAF *Cryptomeria japonica*

A beautiful, restrained, raindrop-shaped, blue-green needled evergreen shrub.

Densely foliated to the base with upswept branches. The blue-green needle color persists in cold weather better than most *Cryptomeria*.

'Chapel View' has been free of the unsightly brown male cones that are produced by many *Cryptomeria*.

FEATURES

- Upright, spreading, raindrop-shaped growth habit
- 7 to 10' high and 5 to 6' wide in 12 to 14 years
- Lustrous, blue-green foliage color persists year-round
- Easy-care plant, requiring moist, well-drained, acid soil and full sun to partial shade
- Uses: foundation plantings, groupings, hedges, and containers
- Highly resistant to insects and diseases
- Zone 6 to 9 adaptability
